MAN 101 YEARS OF AGE LEARNS HOW TO WRITE

(By Associated Press)

BAKU, Azerbaijan, Mar. 15.—At the age of 101 years, Hadji Tagiev, Baku's former oil king, who was ruined by Soviet nationalization of his property, has started to rebuild his fortunes where he began—as a stone mason.

Hadji Tagiev is an optimist. "A man isn't old so long as he can work," he declared, and, like a true Mussulman, he continues to dye his white beard brown.

He is using his spare moments in learning to write. For more than 80 years he had signed his name to business papers by making his mark with a blunt stick dipped in ink. "One must keep up with the times," he explained to curious friends when the centenarian began to take lessons.

Tagiev is known to Americans through his reception in his Baku palace two and a half years ago of the General James H. Korbard mission. He was and is known through our Russia and the middle east as an example of a poor man who became immensely wealthy, first as a house builder and then, 60 years ago, through the purchase of a piece of oil land that yielded abundantly. This was in the days when oil was gathered close to the surface and was taken from wells in buckets.

When the Azerbaijan republic was converted into a children's orphanage and its treasures of art and tapestry scattered, while trying to take some of his silver plate and paintings to the country in ox carts, apparently laden with straw, a red sentinel at the outskirts of the city discovered and seized the escaping wealth. Tagiev was beloved by the workmen of Baku and was not harmed in person.

He is now living in the village of Marja Khan, near here.

ORE SHOWING SILVER PICK IS PLEASING

At a height of 40 feet above the intermediate level between the third and fourth of the Red Top, the ore body in the Silver Pick lease has widened to 14 feet and the average value of the ore for this width is \$56, according to Mat Murphy, superintendent of the Silver Pick, says the Tribune.

Two carloads of \$56 ore are loaded for shipment and enough ore of about the same grade to make two more carloads is broken. The slope is now 40 feet high, 20 feet long and 14 feet wide, the ore continuing into both walls as the slope is widened. Starting with a width of only a few feet on the level, the ore has gradually widened, mostly into the foot wall, until the present width of 14 feet has been reached. This shoot, farther into the hanging wall from the shoot mined through the original winze from the third level, is really an entirely new shoot which may be found of much greater width, length and value than at present opened.

About 200 feet into the foot-wall of the famous old Red Top vein, in which were the greatest stoeps of the Consolidated, the ore being mined by the Silver Pick, has vast importance aside from the value, as it is in an unexplored territory in the vicinity of what was perhaps the greatest producing area of the Consolidated. This fact opens a vista of more bonanza stoeps and proves a new productive part of the district heretofore unknown.

The status of the Silver Pick lease at the present time is such that the great orebodies of the past could readily be duplicated, not only in the block held by the Pick, but in the entire territory stretching from the Red Top shaft to Columbia Mountain, a practically unprospected part of the district. The ore is in a vein roughly parallel to the main Red Top vein, but which still strikes toward the mountain more than the main vein.

The entire situation is considered to be one of vast importance, as in the next few months an entirely new ore-bearing section may be added to the district.

The ore now being shipped from the Silver Pick is giving a net return of about \$2,000 a carload, exclusive of royalty, and present indications are that three to four carloads will be shipped weekly. Eight carloads of ore of varying grades have been sent from the lease in less than a month.

Keep posted on local and foreign news by reading the Bonanza. Dollar a month delivered.

OUTSIDE CAMPS BEGIN SHOWING MORE ACTIVITY

Tonopah Is Forging Steadily Forward and Operations Being Enlarged.

Unless all signs count for naught then the various camps of southern Nevada will shortly be experiencing renewed activities. Weather conditions promise to show a steady improvement which will permit of developments in the outside districts being instituted at an early date and a season of great activity is unquestionably dawning.

Tonopah is beginning to show a revival that promises to be fruitful of results. Enlarged operations are being inaugurated on a number of the larger mines, including the West End, Halifax, Tonopah Belmont, Tonopah Mining, Tonopah Extension, Midway, Rescue-Eula and North Star. It is evident that the production for this year will prove a record breaker and show a substantial increase over that of the last several years.

Numerous milling contracts that have been entered into by the large companies where heavy tonnage of ore from other mines are being treated, is already being felt, and promises to profit in no small way the business life of this district as a result thereof. The increased production will naturally result in more men being given employment in the mines and mills of this district, while outside sections will feel the effects of the revival here in Tonopah.

With the MacNamara mill operating on the three 8-hour shifts, the plant treating the overflow of tonnage from the West End mine, and with shipments of custom ore being received at all times, the output will be augmented in a substantial manner. The same holds true as regards the Tonopah Belmont mill, which is receiving ore from a number of local properties, with contracts pending for an even greater tonnage.

Boysen forges merrily along, and while the hurrah of a few weeks ago is not heard so frequently, it is nevertheless a fact that there promises to be a revival in that section in the early spring. The shaft at the Hudson Mining company property is being sunk rapidly and another 60 days promises to tell a story that many result in the district being invaded by hundreds of miners and investors. In the event that ore is encountered at depth or below the 400 level, then it is a foregone conclusion that many properties will shortly thereafter be receiving attention.

The biggest noise that is manifesting itself at the present time in any outside district, is coming from the camp of Hornsilver in Esmeralda county. Several companies are engaged in prosecuting active campaigns of development and discoveries of more than passing notice are being made from time to time. However, Hornsilver has a rival in the camp of Argente, the scene of a number of important silver discoveries during the last year, and a camp that has been held back by heavy storms during the past winter. Within another month it is expected that there will be an influx of prospectors and mining men, heading for that camp and a season of prosperity is anticipated.

Other districts, such as Eden Creek, Silver Bow, Bellehelen, Clifford, Kiyondyke, Arrowhead, and Round Mountain, Manhattan, Silver Peak, Stone Cabin Valley and Spanish Belt, will no doubt be giving good accounts of themselves before the summer has been very far advanced.

On the whole the outlook is promising for a general mining revival throughout this section of the state.

ST. PATRICK'S DANCE IS NEXT BIG EVENT

There will be brief respite from Lenten season observance on Friday night—St. Patrick's Day—when the ladies of the Catholic church will give the annual ball at Eagles hall, and the event is being looked forward to with a great deal of interest, not only by members of the Catholic faith, but by all classes of men of refinement and it is a foregone conclusion that the hall will be crowded with people who are de people. The ladies in charge have a reputation for furnishing entertaining of spending a profitable and pleasant evening.

The sale of tickets for this event has been unusually large and a nice sum should be realized from the efforts of those in charge, as the money is to be used in paying the premium on insurance for the Catholic church. The Eagles 6-piece orchestra will furnish the music for the entertainment, with "Dutch" Helmick pounding the ivories, so there need be no worry along that line.

PERSONAL

HARRY C. STIMLER returned last night from a visit to Silverton, where he was looking over the Treasure Hills property.

H. A. DARRMS left this morning for Coaldale, accompanied by some men experienced in coal mine work, who will figure on some development to be performed at the Darrms coal property.

C. C. FLOATHE has gone to San Francisco and while there will investigate concerning the purchase of a radiophone which may be purchased and installed at the Elks home.

W. E. EDWARDS, manager of the Super Six Mining company, has about fully recovered from his seige with the flu, and is again able to look after business interests.

BUD MORRIS, of the clerical force at the local depot, expects to be able to enjoy a visit with his family within the next couple of days. Mr. Morris's son, Ross, was stricken with scarlet fever, and for the last 20 days the home has been quarantined, and Mr. Morris has been taking pot luck in the meantime.

MISS ETHEL ROWE, popular messenger girl with the local offices of the Western Union, who has been quite ill for the last several days, was reported this morning as being much improved. Miss Dorothy, her sister, is doing double duty with the local office during Miss Ethel's illness.

REDUCTION IN TAX LEVY IS PROMISED

The tax levy for the incoming year will show a material reduction in Nye county, according to estimates made by the board of county commissioners. The levy for Tonopah will probably be fixed at \$4.20 as against \$4.46 levied last year, and which will affect a saving of 26 cents per \$100. The budget as agreed upon is as follows: County, \$3.13; Tonopah school district, \$3.48; Tonopah township, \$4.20; Rhyolite school district, \$4.53; Manhattan school district, \$3.38. The mill levy as agreed upon is as follows: County roads and bridges, .08; state highway, .10; school mines, .01; common schools, .50; high schools, .14; indigent, .20; general funds, \$1.46.

The assessed property value for 1922 is estimated at \$3,300,000; personal property, \$450,000; proceeds from the mines, \$1,500,000, net, or a total of \$3,050,000.

The budget for the town of Tonopah will result in the following levy: Special tax for bond redemption and interest, .25; library, .02; kindergarten, .03; fire protection, .39; streets and alleys, .33; general, .05; state, .62 and county, 2.51.

ISAIAH MOORE HAD THIRTEEN WIVES

INDIANAPOLIS, Ind., Mar. 15.—Two more wives were added to the list of matrimonial ventures of Isaiah Moore, under arrest here, charged with bigamy and embezzlement. "I have kept a pretty good record of my marriages, and I am sure there were only 13," he said.

Manion and Kelly Buy Out Drysdale

John F. Manion and Albert Kelly concluded a deal yesterday afternoon whereby they take over the interest of Walter Drysdale in the Bank Buffet. This popular gathering place has been closed for a few days, during which time it will be beautified and improved generally. The opening date will be made known through this paper.

No order of job printing is too large or too small for The Bonanza to fill. We employ only the most skillful and artistic printers. Prompt service assured.

CLASSIFIED ADS

FOR SALE.

FOR SALE—Doors and windows, at reduced rates. Apply Old Mizpah Grill building.

WANTED

WANTED—Leasers at Rawhide, royalty 15 per cent up to \$400 per ton. 20 per cent over \$400 per ton. Practically ever miner who has leased at Rawhide has made much better than day's pay, and some have made substantial amounts. For particulars, address P. O. Box 5001, Reno, Nevada.

LOST

LOST—Goodyear cord tire, 36x4 1/2, on road leading to Goldfield. Liberal reward by leaving at Bonanza.

FOUND

FOUND—Copper kettle with coils. Prove property and equipment is yours. Address Box LL, Tonopah.

FOUND—Gold bracelet set with jewel. Describe, pay for ad and take away. Bonanza office.

AMUSEMENTS

CONSTANCE TALMADGE IN DIVORCE SCANDAL

Of all the causes for divorce entered on the local court records, there is yet to be found a plaint as strange as that found in the story of "Wedding Bells," which will be shown at the Butler today, with Constance Talmadge and Harrison Ford in the leading roles, a pair that is surely hard to beat. The reason for the divorce was one of two-fold importance. In the first place Rosalie hobbled her hair. In the second place Reginald caught a case of measles. All of which follows a married life of only two days, preceded by an impulsive marriage which itself was brought about on account of Rosalie's pet poodle, Phkio, who caused the introduction of Rosalie and Reginald by running off with one of Reggie's patent leather pumps and carried it into his mistress's room. Palm Beach and New York City are the locations in which most of the action takes place, and the opportunities of both spots for variety in action and story have been accepted for their full possibilities. "Wedding Bells" is a screen version of Salisbury Field's successful play of the same title. Added to the program will be a 2-reel comedy entitled "Holy Smoke."

Tomorrow, Alice Joyce in "The Inner Chamber."

Coming—the big film masterpiece "Shame."

Deep Mines Publicity Office Moved to Boston

J. Harry Gilmour, who has been conducting the publicity campaign for the Deep Mines company, left Sunday morning for San Francisco, and after a short stay there, he will go to Boston, from where the campaign will be conducted in the future, according to H. G. McMahon, secretary-treasurer of the Deep Mines company. The advertising and other publicity work of Mr. Gilmour is reported to have met with particular success in the New England states and for that reason it was decided to move his office to Boston, Goldfield being too far from the center of best results. Mr. Gilmour will be in Boston in about ten days.—Tribune.

If you want the news, both telegraph and local, hot off the pan, read the Daily Bonanza. Delivered at your door for \$1 a month.
